

Greetings LIFE Groups,

The early church was very much about caring for others. We experience more joy when we focus on others.

That being said, please continually check on your LIFE Group members and any visitors. Ask if they have any needs or if they know of any others in need. This may include watching someones kid(s), picking up groceries, mental health checks, encouragement to store employees, or swinging through a pharmacy to pickup meds. Please contact me directly if your LIFE Group needs help fulfilling these needs. Also, we may be contacting you with any needs that arise.

An example of one of the needs may be to pickup groceries for the elderly or single mothers. This example would be paid for by the person. This is not a "grab me a coke and a candy bar" kind of "need."

We want to be the Hands and Feet.

Thank you for loving & serving others,  
Glen Meadows Staff
